The Class of Fifty-five is extremely proud and happy to dedicate its TAU to Coach Farley. His kindly help, his friendliness, and his indefatigable spirit mark him a real champion, who is regal in all contests.

Coach Farley has endeared himself to all of us through both precept and example; he has made us better for our having known him. The Class of Fifty-five salutes a winner, and our best wishes remain with him always.

CHANGING TIDES

It is a rather exciting day in the year 1976 for this is the day before the Crew of '55 Reunion aboard the new luxury liner, U. S. S. Futuramic. Let's look around, though, before going and see what has happened to the graduates of that year . . .

A quick trip around Greenville reveals many of them still here. Passing through the residential section, we see Sara Adams Speight, Nannette Sullivan Barnhill, Betty Craft Humbles, Eula Buck Parker, and Barbara Barber West doing wonders juggling the family budget.

And here comes James Speight whistling up the walk. He is now head athletic director at East Carolina University. Hear it is quite a battle when Coach Pat Sawyer's Duke Blue Devils and Mitchell Johnson's U. N. C. team meet. So far the score has stayed 90-90.

On our way to the business district we pass an ultra-modern clinic. From the sign out front, we find that Harry Scott is chief surgeon and Ricky Humbert is his assistant. In the door we see two of their staff, Christine Harper and Peggy Lancaster serving doughnuts and coffee to their many patients.

Next door we find Dolly Best, Greenville's first psychiatrist. Her assistants, Nancy Baker and Norma Barnhill, tell me David Evans is really helping them get patients since he bought his new jet-propelled Cadillac. Also it seems David has been helping Steve Wilkerson a great deal. Steve is owner of the Deluxe Funeral Home which now covers an entire block. His sign out front informs us that "Nobody is Too Dead to be Served."

Up the street at the new church, Rev. Tommy Bodkin informs us that Carolyn Tripp has become a Director of Religious Education, Frances Vandiford is a missionary to South Egypt, and Pat Baker, having finally grown to 5 feet, 2 inches, is married to a Methodist minister! Also, Marjorie DeSavigny, Rachel Steinbeck, and Ann Howie are touring the world. Elizabeth Larkins began her tour, but decided to stay in Paris and model for the Elite Dress Shoppe.

Down at the hometown drugstore we find Dewey Griffith behind the counter busily making his nationally famous Super Duper Ten Cream Delight. He relates the fame of John Brooks, Ambassador to Russia; Wayne Bishop, Vice President of the United States; and Lou Tilley, famous opera star and ballet dancer. Lou Tilley and Norma Basnight are appearing nightly in the new musical, "Pajama Game."

As he is talking, Clark enters, shouting that Kitty is about to become the first woman President of the United States. Hooray for Kitty! Clark owns a chain of Camera Shops throughout the South.

Across the street Wardie Godley operates the Roxy Theater. Currently running is "Revues of '59" in which such stars as Glenn Briley, Jay Robbins, and Jane Winchester are big attractions. In '58 these three took Hollywood by storm and have been famous ever since.

Joanna Hardee, Kitty Collins, and Rachel Steinbeck are breaking record sales of all time with their latest "Teach Me Tonight." It has been number one on the Hit Parade for nearly two years.

Upon entering the Daily Reflector office, clicking typewriters reveal Jeri Lasitter, Sports Editor; and Lou Cheatham, Society Editor. Hidden behind a stack of papers we find Artemis Kares, head of the paper. She takes a few minutes to show us the latest election returns. Dennis Bullock has been unanimously elected Mayor and Key Gray, Ray Gardner, and Donald Hudson are our new Aldermen.

Another item on the front page calls our attention to the fact that Jill Sutton has been elected "Miss America" and will now compete for the "Miss Universe" title.

Now what is that enormous building we see beyond the top of these buildings? Why, it is the new high school building designed by Leytha Brewer, famous architect and interior decorator.

In the office, Mamie Ruth Brady, Betty Jean Edwards and Barbara Harrington greet us. As we stand there talking, several of the faculty drop in for their mail. First is Mrs. Alice Flye Powell, who is now teaching French and Latin. Behind her enters Miss Joyce Gilbert, head of the Commerce Department, and Mrs. Hannah Proctor Howell, who replaced Miss Greene. They tell us that Janet Powell is teaching the first grade in the new elementary school at Elmhurst.

Missing from the faculty is Gwyn Clark. She was Girls' Athletic Director, but now she has accepted a position in Miami teaching swimming and diving in one of the big hotel indoor swimming pools. Harriss Northrop, Football Coach, is at the height of his winning streak with seventeen wins and no losses.

CHANGING TIDES

In the library Shirley Holland and Ann Jackson are busily arranging new books on the shelves. They proudly show us their latest picture contributed by the renowned artist, Patricia Herring. Goodness, what a change from the old, crowded, noisy classrooms from which we were graduated.

On Evans Street there is a huge plumbing business owned by Gene Brown and Sons. There's really not much to it any more since Gene invented several electric gadgets that do it all. Barbara Jackson operates the switchboard and relays calls on his two-way radio.

Barbara tells us John Stancill and Tommie Saieed are still breaking hearts. They are now known as America's two richest bachelors.

Anna Stokes is Register of Deeds and Joy Jordan has received her lawyer's degree. She succeeds so well in keeping everyone completely confused that she hasn't lost a case yet. Louise Smaw and Peggy Allen, her two secretaries, make weekly visits to Dolly because they get so confused.

Driving out toward the city limits, Jimmy Hendrix's 2,000 acre dairy ranch comes into view. He is constantly experimenting with his animals and plants so that he can make further contributions to the 4-H Clubs.

Mack Churchill invents new chemicals to use on these plants and has just published a best-seller "How to Make a Killing on Chlorophyll." Mack tells us two of our classmates have joined the ranks. Mac Respess is head of North Carolina's NROTC and Rudy Ross has become a Captain in the Navy.

Also, Charles Overton has just been convicted of monopolizing the grocery business. His secretary and bookkeeper, Shirley Tyner and Edgar Moore, turned State's evidence on him; but Raymond Spain had him acquitted for the small sum of $10,000.

Giving parking tickets left and right we find Cathy Tripp. She says she had little to do until "this happened," and she points across the street to an enormous building.

"Adams Bros. and Partners
Souped Up '31 Fords
140 M. P. H. Guaranteed"

meets our eyes. Upon entering we learn this belongs to Kenneth and Bobby Adams, and their "Partners" are Bill Kittrell and Don Manning. On the testing strip two cars are screeching to a stop and out jump Jessie Kennedy and Ann Reid complaining because their cars only ran 139 mph this time.

Ann tells us Jimmy Smith has become America's first billionaire and that Sue Tucker is teaching at Duke. This enables her to go to all the ball games free, and she is still one of their strongest supporters.

As we leave and drive a little further down the street we see Carolina Sales has grown so that it covers a half block. Well, why not visit here, too? So we step inside. Mable Lewis, the receptionist, asks us if we would like to talk to the president. To our amazement, it is Frances Adams.

We have a long talk in which she tells us that Preston Jarvis and Jimmy Perkins are head chemists. They have their own special labs, and so far they have only blown the south end off four times.

Then she tells us that Mary Will Long is editor of the "New York Times" which is written in every language and sent all over the world.

Again we enter the business section and see Robert Wadford on his used-car lot. Before we can leave, we have traded our '37 Chevy for a '75 Streamliner. His secretary, Peggy Johnston, writes the bill of sale and his bookkeeper, Mary Lou Rogers, takes our money. They tell us he averages selling thirty-four cars a day.

Our last letter from Florence Smith and Hilda Kennedy said they had found jobs as the "Tall Ladies" in the Big Top, and Pat Nelson and Juanita Cobb are happily married and living in California.

We say our good-byes then and drive along bubbling with excitement as we remember that tomorrow we will see all of our classmates on the new luxury liner. So farewell to you until it is time for another Class Reunion in the year 1996.

Class Prophet

STUDENTS

"Blood, sweat, and tears" have gone into this book.
Thumb through it, please; take a look
At the staff that struggled for *you*
That all might enjoy it—your grandchildren, too.

Many years will go by; the leaves will yellow with age,
And *you* above all will thank this page
For bringing back memories of times long ago,
When your eyesight was keen an' your step was not slow.

So, we on the staff of one-nine-five-five
Say, "Here we bow out—less dead than alive!"

You just don't know how much you have helped me and I don't know how I can repay you. But don't worry I will some how. I'll never forget those baseball games on Sunday. We really have had some "balls" in our time haven't we. I remember the time you almost cut your tongue off I'll never forget that. I'm write in your annual now because I won't be here next year at this time. You had better save your money and buy you a little car of some kind. There is one thing I want you to do and that is play it cool and start dating because you don't know what you are missing. When you start don't "snow" all the girls and give John Wesley a chance. I want you to make every thing at H. H. S. to rock, so you should really have a good time your Jr. and Sr. year.

Your Loving Brother
Steve

The Printer

Without him ... tyrants and humbugs in all countries would have their own way ... He is a friend of intelligence and thought ... a friend of liberty ... of freedom ... of law ... indeed the friend of every man who is a friend of order ... Of all inventions, of all discoveries in science and art ... of all the great results in the wonderful progress of mechanical energy and skill ... the printer is the only product of civilization necessary to the existence of free men.
